

CENTRAL RECORD.

— An Independent, Local Newspaper. —
ISSUED WEEKLY.

LOUIS LANDRAM, Editor and Publisher.

Lancaster, Ky. April 18, 1901.

If political matters are as quiet in all counties as they are in Garrard, the old floater is on short grazing and those who have business to attend to are escaping much annoyance. The democrats have nominated a ticket, but the republicans have not decided upon who they will put in the field. It would have been a God-send to the county if both parties had gotten together and divided the offices equally, thus avoiding much confusion and excitement, and giving the people a much better administration of affairs. When the officers are divided, there is no chance for rascality, as each will watch the other, hoping to find something to spring at the next election. While the affairs in Garrard county have always been looked after honestly and carefully, yet it will not hurt an honest man to watch him, and, moreover an honest man will not object to being watched.

The RECORD arises to congratulate our sister city, Danville, upon the action of her citizens in refusing to resort to mob violence in the Crumm murder. While hanging was the only remedy in the case, yet it is a good idea to show evil doers that juries sometimes decide to hang murderers. So many red-handed criminals are turned loose on communities, that the first thought entering the head is that if left to the courts and juries, the case will be worn out and the criminal escape by serving a few years in the penitentiary. A good hanging has the effect to throw a damper over the pistol users, and its a great pity, indeed, that more murderers are not dangled at a rope's end. The people of Danville are to be congratulated on their cool-headedness, and Judge Saffley and Commonwealth Attorney Owsley deserve great praise for the speedy disposition of the case.

Two Havana editors have been sent to prison for thirty and sixty days respectively for publishing "a libelous article" regarding Captain Lucien Young, Captain of the Port. If these poor newspaper men stretched the blanket like Capt. Young used to do when in Lancaster, they certainly received light punishment for the crimes. Our older citizens remember well how the festive Lucien would tank up on Garrard county's best, stick his feet on a table, open his head and send a dumb chill thro' the crowd by his yawns. He ought to remember the fact that charity begins at home.

A circular announces for sale the plant of the defunct Louisville Dispatch, and "A Great Bargain" is offered. We had little use for the Dispatch when it was first thrust on a suffering public, and our contempt grew as the paper advanced in years. It was started to run the noble old Courier-Journal off the roost, but the gnawing of the file soon cut its teeth to the gums, and its wailings of recent months have been pitiful to hear. The starting of the Dispatch, like all other spite work, ended disastrously to those in charge thereof.

MANY newspapers in the state are offering prizes in guessing contests, the rewards running from a year's subscription, to a house and lot. It looks to a man up a tree like this plan is entirely too much sugar for a cent, but we hope the boys will reap many dollars by the venture. By the time we send a paper twelve months for only one dollar, there is not enough margin left to buy a ham sandwich.

MILTON F. CONLEY, editor of the Big Sandy News, purchased an interest in the Ashland Daily Independent, and will be one of the editors of that paper. Mr. Conley is one of the best newspaper men in the state, and no one is more highly esteemed by the members of the fraternity. The RECORD joins the brethren of the quill in wishing him unbounded success.

THERE is a man in Missouri who is such a liar that the physicians never "look at his tongue" when he is ill, as they know that they can't believe anything that it might say or indicate. The report does not say so, but it is at once understood that the fellow is a prominent and leading politician.

A PHYSICIAN in New York committed suicide because one of his patients died. When death overtakes the sick, it is always because the doctor was not sent for in time to raise him from his bed, and we presume this is the one exception since doctors were "invented."

UP in Richmond, some ladies gave a "horror party," each bringing the thing she most despised. It is a strange fact that only one brought her husband, the rest making the mistake of bringing mice.

You will waste time if you try to cure indigestion or dyspepsia by starving yourself. That only makes it worse when you do eat heartily. You always need plenty of good food properly digested. Kodol Dyspepsia Cure is the result of years of scientific research for something that would digest not only some elements of food but every kind. And it is the one remedy that will do it. F. P. If Lancaster and Garrard county had a few more men like Louis Landram to pull for the railroads and other enterprises that would benefit the county and town they would get anything they wanted. He does more for the building up of the town than any three men in it and gets less for it.

KENTUCKY CROP REPORT.

Conditions, Etc., April 1, 1901.

The crop reports received by Commissioner of Agriculture Hall from all sections of the State show that the weather for the greater part of March was favorable for spring plowing, although the temperature was too low to allow much corn to be planted, except along the southern border. Farm work has generally progressed well throughout Kentucky, and a few warm days will set the corn planters to work. The general conditions on April 1 were much better than they were a month ago, and the wheat crops has proved up from 68 to 73.8, a gain of 12 points. The indications are for four-fifths of a crop. Rye has made a gain of 11 points during the month, while barley has shown up much better recently.

The reports also show a very satisfactory condition of live stock. The number of swine reported are 76 as compared with 78 last month. This is due to high price and desire to sell off close to get the benefit of it. Farmers have not had \$6.10 quoted for this class of stocks for some years. Horses and mules are reported at \$7 as compared with last year.

The fruit prospect is fine and every day diminishes the chance of destruction by frost. Strawberries are reported at 75, and small fruits at 95. Potatoes this year will be very plentiful, and from present prospects the crop will reach 100.

In the Bluegrass section the clover and bluegrass have been almost ruined by the white grub worm.

The Best Remedy for Rheumatism.

Quick relief for pain.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until a was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by R. E. McRoberts druggist.

OBITUARY.

In loving remembrance of Mrs. Eliza Maret Moberly, who died February 16, 1901.

In the gray dawn of the morning she went away from us. We could not see the angel hand that clasped the busy fingers that had never ceased their unselfish and loving labors for us—we could not hear the Heavenly voice that whispered "Come," but she felt the clasp and heard the word, and passed through the Beautiful Gate into happiness forever, while we wept for the pain of parting. It is written, "Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him." Then how great must have been her joy when Heaven's bright and showing glories burst upon her and she met again the dear one's God had long since called! And how vain it is for us to think of her as dead, when she is in the midst of life eternal! "Teach us Lord, to think of her still the same, we pray, she is not dead—she is just away."
